📍 **Home:** Syria, Hama (Syria)

ABOUT ME

I'm Mahmod, a 26-year-old Fullstack developer with 4 years of expertise, specializing in Vue, React, Node, and TypeScript. I excel in crafting high-quality, scalable web applications that precisely meet business requirements. Proficient in HTML, CSS, and JavaScript, I've honed my skills with frameworks such as React, Next, Vue, and Nest. I seamlessly collaborate with cross-functional teams, contributing to feature development, enhancing existing functionality, and troubleshooting issues. Committed to continuous learning, I stay abreast of both cutting-edge technologies and foundational principles, ensuring a robust skill set. My dedication to staying informed on the latest web development trends ensures optimal application optimization.

WORK EXPERIENCE

Frontend Engineer
Unifi Solutions [14/01/2021 – Current]

In my role at Unifi Solutions, I played a key role in major IoT and e-commerce projects:
1. **Project Development:**
• Led the development of critical IoT and e-commerce projects, enhancing overall application functionality.
2. **Third-Party Tools Utilization:**
• Implemented features using tools like Google Maps, ZingChart, and i18n, elevating application capabilities.
3. **User Access Management:**
• Designed and implemented a robust user access system with distinct roles, ensuring a secure environment.
4. **Innovative Time-Based Access:**
• Developed a sophisticated time-based access system, significantly improving user control and security.
5. **Time Zone Coordination:**
• Addressed challenges of different time zones, implementing a clean solution for team coordination.
6. **Reporting System:**
• Contributed to a robust reporting system, generating detailed reports with flexibility for customization.
7. **Mapping and Data Processing:**
• Integrated tracking devices on maps, facilitating real-time monitoring and extracting insights from big data logs.
8. **Data Form Handling**:
• Managed intricate data forms, ensuring effective processing of extensive data logs.

Full-stack Developer
Freelance [01/01/2020 – 31/12/2021]

1. **Analyzing client requirements and creating project plans.**
2. **Designing responsive and user-friendly websites/applications.**
3. **Developing both front-end and back-end functionalities.**
4. **Conducting thorough testing and debugging to ensure error-free delivery.**
5. **Deploying and maintaining smooth website/application operation on servers.**
6. **Offering ongoing maintenance and support post-delivery.**

EDUCATION AND TRAINING

Computer Software Engineering
Al-Baath University [08/02/2016 – 21/09/2020]

Thesis: Thesis: Developing a secure electronic voting system using blockchain technology, Ethereum, smart contracts (Solidity), Truffle, Ganache, and implementing with Javascript and Web3.js.

DIGITAL SKILLS

TypeScripta / React (JS) / Next JS / Vue JS / Node JS / Nest,JS / NoSQL | MongoDB / tailwind css / Blockchian / Socket e Websocket / MobX,Zustand / React Hooks, React Redux / Material UI / Quasar framework / RESTful APIS / Vite / Node Js (JavaScript) / Docker

PROJECTS

DisruptX

Global IOT Solutions Platform is a UAE-based platform provider that is committed to leveraging the growth of technology and digitalization through the development of smart AI-based solutions.
