📍 **Home:** Syria, Hama (Syria)

ABOUT ME

I'm Mahmod, 25, and a Vue/React/Node/Typescript Fullstack developer. with 3 years of experience, I specialize in developing high-quality, scalable, and efficient web applications that meet business requirements.
I have a strong proficiency in web development technologies, such as HTML, CSS, and JavaScript, as well as experience working with popular web development frameworks like React, Next, Vue, Nest. My experience also includes collaborating with cross-functional teams to develop new features, improve existing functionality, and troubleshoot issues. With a focus on continuous learning and professional development.
I am proficient in cutting-edge technologies and also understand the fundamental principles of earlier days. In-depth knowledge, not just tutorials.
I stay up-to-date with the latest web development trends and techniques to ensure that the applications I develop are optimized for performance, accessibility, and security. I am dedicated to delivering top-quality results and providing a positive.

WORK EXPERIENCE

Frontend Engineer
Unifi Solutions [14/04/2021 – Current]

Development of an e-commerce platform
See more tech project
Disrupt-x https://disrupt-x.io/ - https://cloud.disrupt-x.io/
United Arab Emirates - Dubai
Disrupt-x : Global IOT Solutions Platform is a UAE-based platform provider that is committed to leveraging the growth of technology and digitalization through the development of smart AI-based solutions that deliver innovative IoT products . during my time at Disrupt-X i did:
Developed Reusable Components around the System
Worked on Real Time Ticketing system for customer support
Developed and implemented architectures for web applications
worked on wrapper Vue js libraries for google map and zingchart
some of the new solutions a worked on:
Metro Locks :
IoT Solution For Securing Your Assets Efficiently. Metro Watch Solution Offers Smart Padlocks, Smart Parking And Tracking Solutions To Secure And Manage Your Assets Using An IoT Cloud Platform And Mobile App.
Fleet Management :
End To End Solution For Managing Your Fleet Through Real-Time Tracking, Route Optimization, Vehicle, And Driver Management, And Continuous Vehicle Health Monitoring.
Smart Parking :
IoT solutions for efficiently managing parking spaces, tracking parking space utilizations and to prevent unauthorized accesses and overstays through optimized sensors and IoT platform .
Facility Booking :
IOT solution for efficiently managing building spaces, track spaces workload and unauthorized booking through optimized sensors and IoT platform
Cloud Orbit :
Believes In A Greener And Cleaner Environment. To Contribute To This, We Have Developed An End IoT Solution For Community Managers And Municipalities That Will Allow Them To Monitor Waste Fill Levels And Rodent Infestations.
Cognitive Neurons :
AI Based Solution For Convenient Entry And Exit From Parking Spaces Using Smart ANPR (Automated Number Plate Recognition).

Full-stack Developer

Freelance [01/01/2020 – 31/12/2021]

Understanding the client's requirements and developing a project plan accordingly.
Designing and developing user-friendly and responsive websites or web applications.
